

# CALLECTIVE ENERGY Green Gas

## 2026 PROSPECTIVE CARBON OFFSET CONTENT LABEL

This carbon offset content label explains information about the greenhouse gas emissions reductions you are purchasing through CALLECTIVE ENERGY Green Gas. It is a simple, transparent way for you to be certain your purchase is resulting in real environmental benefits.

Project Type	Project Certification	Project Location	% of Product
Industrial Process Emissions	ACR	USA	100%
<b>The emissions reductions supplied were created in:</b>			2019

The Carbon Offset Content Label represents the mix of offsets we have contracted to provide. Actual percentages of GHG emissions reductions may vary by a small amount. In the case of significant variance, Collective Energy is obligated to provide you with more accurate historical disclosure.

Emissions burned as fuel are determined by multiplying therm usage by the carbon equivalent rate of 0.0053 metric tons CO<sub>2</sub> (Source: U.S. EPA) <https://www.epa.gov/energy/greenhouse-gas-equivalencies-calculator>

Visit <http://www.collectiveenergy.com> for a list of carbon offset projects.

# Climate

CERTIFIED

**Green-e**® **Climate** is an independent certification program for

greenhouse gas emissions reductions (carbon offsets) sold in the voluntary market. The Green-e Climate logo identifies carbon offsets that meet the program's high environmental and consumer protection standards. For more information on Green-e Climate certification requirements, visit [www.green-e.org/climate](http://www.green-e.org/climate) or email [climate@green-e.org](mailto:climate@green-e.org).
